

PROPOSED MERCER CORRIDOR ALTERNATIVE B : TWO-WAY MERCER OPTION 1

Alternative B is a widened two-way Mercer Street with three lanes in each direction and a median with left turn lanes from the I-5 ramps at Fairview Avenue to Dexter Avenue. The new westbound lanes would connect to the Broad Street underpass west of Ninth Avenue. With changes under consideration as part of the Alaskan Way Viaduct and Seawall Replacement Project (AWVSRP) for Aurora Avenue, the two-way Mercer would be extended west to Fifth Avenue. Valley Street would be narrowed to a two or three-lane street between Fairview and Westlake Avenues.
